

A RESORT SPF EXPERIENCE

Pearl Cocoon

Sun care, elevated
to a guest ritual.

A premium automated SPF application concept
for luxury resorts, beach clubs and private
islands.

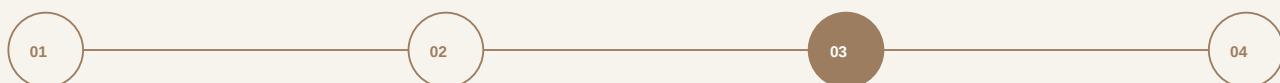

FOUNDING RESORT PILOT

FROM US\$59,000

Protection without breaking the rhythm of the day.

Pearl Cocoon turns sunscreen application into a calm, visible resort amenity: fast enough to be convenient and considered enough to feel part of the stay.

Step in

An open enclosure keeps the experience airy and intuitive.

Select

A simple touch interface confirms and starts the cycle.

Apply

Six concealed zones deliver a controlled body mist.

Return

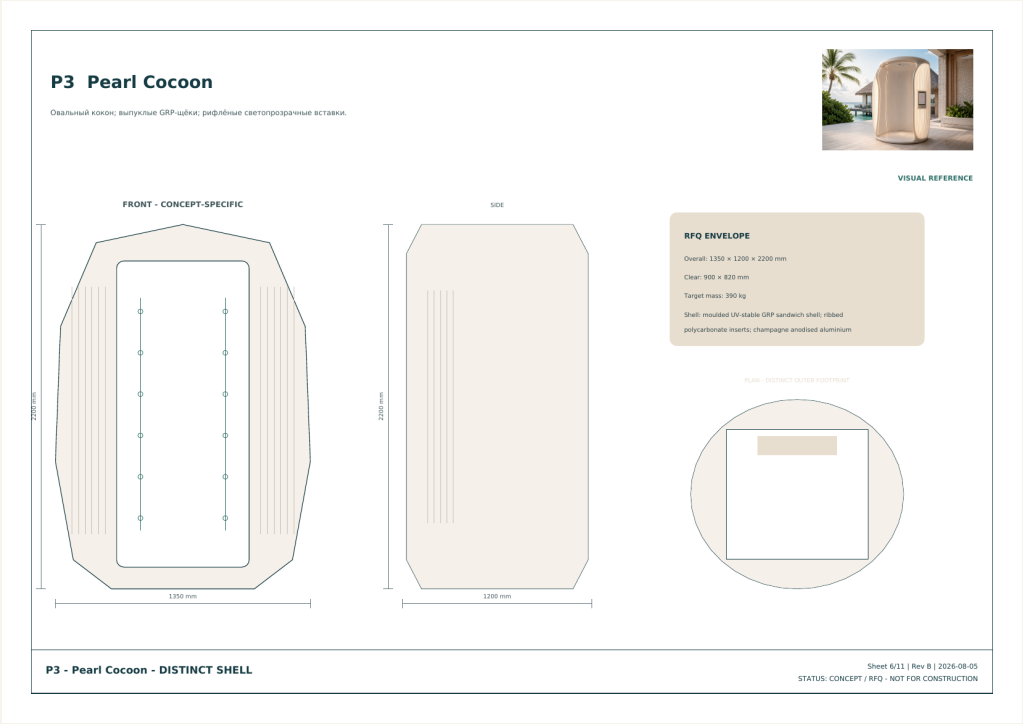

The guest continues to pool or beach with minimal interruption.

TARGET CYCLE

30-45 seconds

Target duration and coverage are validated during prototype and pilot testing.

A considered amenity, not a construction project.

PLANNING ENVELOPE

Approx. 1.4 x 1.3 x 2.25 m

ELECTRICAL

100-240 V AC; protected 10 A outlet

INTERNAL CONTROLS

24 V DC; target peak load below 1 kW

DRAINAGE

Floor drain preferred; recovery-tank option

CONNECTIVITY

Wi-Fi standard; optional 4G

BACKUP OPTION

2-3 kWh battery module

Preferred placement: a shaded, supervised transition zone between accommodation, pool and beach, protected from direct surf exposure.

Final requirements follow a site survey, detailed engineering and local electrical review.

Test the experience before a wider rollout.

A single-site programme to validate guest adoption, operating fit and the commercial case in a real luxury-hospitality environment.

INDICATIVE LAUNCH PRICE

From US\$59,000

One Pearl Cocoon unit and a 90-day supported pilot.

- | | | | |
|----|--------------------------------------|----|------------------------------|
| 01 | Resort-specific finish configuration | 02 | Remote site-readiness review |
| 03 | Commissioning and staff training | 04 | Launch spare-parts kit |
| 05 | 90 days of remote technical support | | |

Excludes freight, import duties, local works, taxes and SPF consumables. Formula development, certification scope and annual support are quoted separately.
